# Kinderloop Magic Ai

A little Magic to help make documentation easier. Kinderloop Magic gives educators considered Ai tools to support everyday documentation, while educators always stay in control of the final content.

## If you don't already use Magic, here's how to get started...

### 1. Turn on and choose your options

Go to **Settings > Magic**, Turn Magic ON, then choose which Magic features you would like available for your service.

You can turn each option on or off:

**Spelling & Grammar** - Quickly tidy spelling and grammar.

**Expand Bullets** - Turn your quick notes into a flowing post.

**Rewrite Post** - Rewrite your text in a clear, consistent style.

**Translate** - Translate your post into a family's chosen language.

**Suggest Learning Tags** - Let Magic suggest relevant learning tags based on your post.

**Goal Summaries** - Summarise a child's goals and progress.

### 2. Using Magic in a post

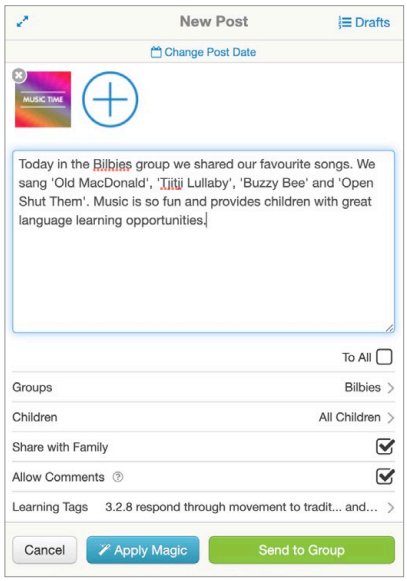

Start a **New Post** and add your content as you normally would.

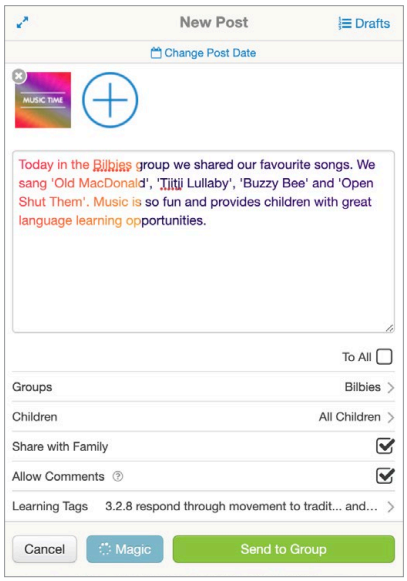

- **Select Magic**
- **Choose the Magic option** you'd like to use
- Select **Apply Magic**

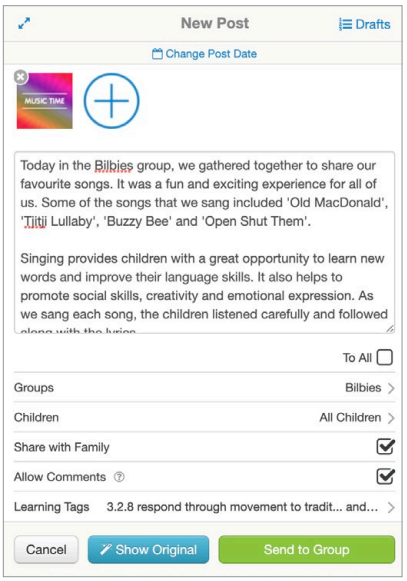

Magic will create a suggestion for you to review and if you are happy with it; select **Apply Magic** and the new content will be added to your post.

You can still edit or change the text before sharing your post.

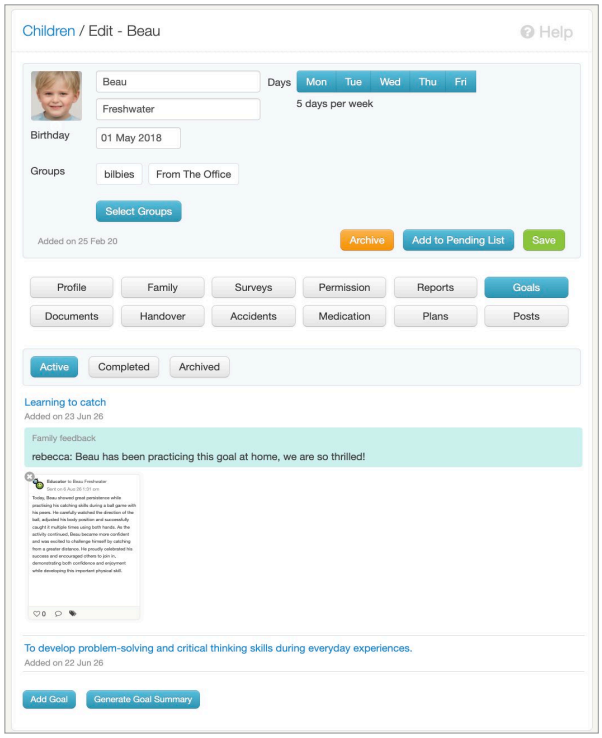

**1 Magic action = 1 credit**

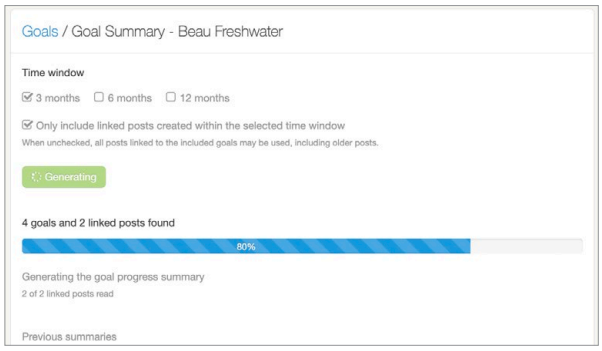

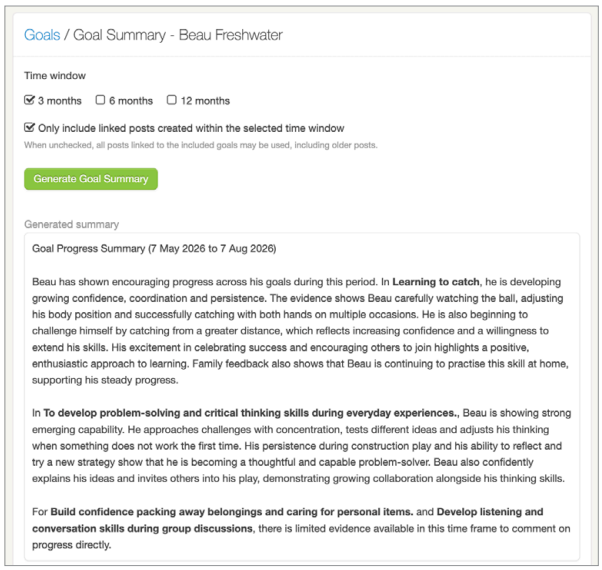

# Kinderloop Magic Ai

## Goal Summaries with Kinderloop Magic (Optional)

Generate an AI-powered summary of a child's progress across their goals using Kinderloop Magic.

Once you have added goals for a child and linked posts as evidence, select: **Create Goal Summary**

Choose the date range you would like to summarise.

Magic will look at:

- the child's goals
- the written content in posts linked as evidence
- your selected date range

It will then create a simple summary of the child's progress for you to review and edit. **1 Goal Summary = 2 credits**

## Magic credits

Kinderloop Magic is an optional add-on for **$10 per month**

This includes **200 Magic credits each month**

Credits are shared across your service and are only used when you choose to apply a Magic action, you can also top up your credits at any time as required. This gives your team the flexibility to use Magic where it helps most.

## Your information stays private

Kinderloop Magic only uses the **written text** needed to complete the Magic action.

Magic does **not** see:

- children's photos
- children's names
- children's personal details

For Goal Summaries, Magic uses the goal information and the written text from posts you have linked as evidence.

**Magic supports your professional judgement, it doesn't replace it.**

*Always review your Magic suggestion before applying or sharing it.*
